

Xcalator wireless mouse

The Klip Xtreme® Xcalator mouse is absolutely one of the coolest accessories you can find. Boasting the latest BluPoint technology, this mouse glides effortlessly by relying on a sensor capable of capturing high contrast images for optimized precision and performance on virtually any surface. Another great innovation is the adjustable height of the mouse: it can be made flat for travelling or raised for added comfort. The sleek Xcalator will also allow you to mouse around for months without the need of replacing the batteries often, even when using the mouse constantly.
